

THE INTERNATIONAL BEAVER SYMPOSIUM STUDENT RESEARCH AWARDS

All students working on beaver research projects are encouraged to attend and present their work at the International Beaver Symposium (4th European Beaver Symposium/3rd Euro-American Beaver Congress) to be held in Freising, Germany from 11 – 14 September. All student presentations will be eligible for evaluation and awards for outstanding research will be presented at the conclusion of the symposium.

Presentations will be evaluated on the importance of the scientific question being addressed, research methods, results and analysis, and importance of the research to beaver biology.

The awards will include a cash prize, certificate of recognition and appropriate beaver memento. The International Beaver Research Consortium sponsors these awards.
